

▶ CTRL BENEFITS FOR MEMBERS OF SHIPOWNERS' CLUB

CTRL offers bespoke Claims, Technical, Risk and Legal services to Members and non Members of the Shipowners' Club on flexible terms and at favourable rates. However, Members of the Shipowners' Club are able to take advantage of CTRL's services in a number of ways, tapping into free resources, a complimentary health check of operational procedures and free qualifying legal work.

Complimentary health check of operational procedures

Members of the Shipowners' Club have access to a voucher, giving them a complimentary health check of their operational procedures. It is a challenge for operators to manage the busy and complex operations of a vessel or fleet while also ensuring that procedures and systems are up-to-date with ever-changing legal standards and regulations. As such, CTRL offers the health check as a 'no strings attached' assessment that identifies any areas within operations that may need improvement or implementation.

The Shipowners' Club has released a short guide for brokers to assist them in sharing and explaining the financial benefits of Club membership. [Access the guide here or to the right of this page.](#)
